

LALLEMAND PRODUCTS – ORGANIC CERTIFICATION INFORMATION

BioGro

Can be used for organic wine production (BioGro Registered Product) | <https://www.biogro.co.nz/>

OMRI is an acronym for the 'Organic Materials Review Institute (USA). OMRI listed products may be used on operations that are certified organic under the USDA national Organic program. Australian winemakers use this as supportive documentation to gain approvals to use the products from their Australian certification body.

This information does not replace the need to ensure the products are allowed for use by your certification body prior to use. For international market compliance please contact your certifying body.
